

TOF-Controller

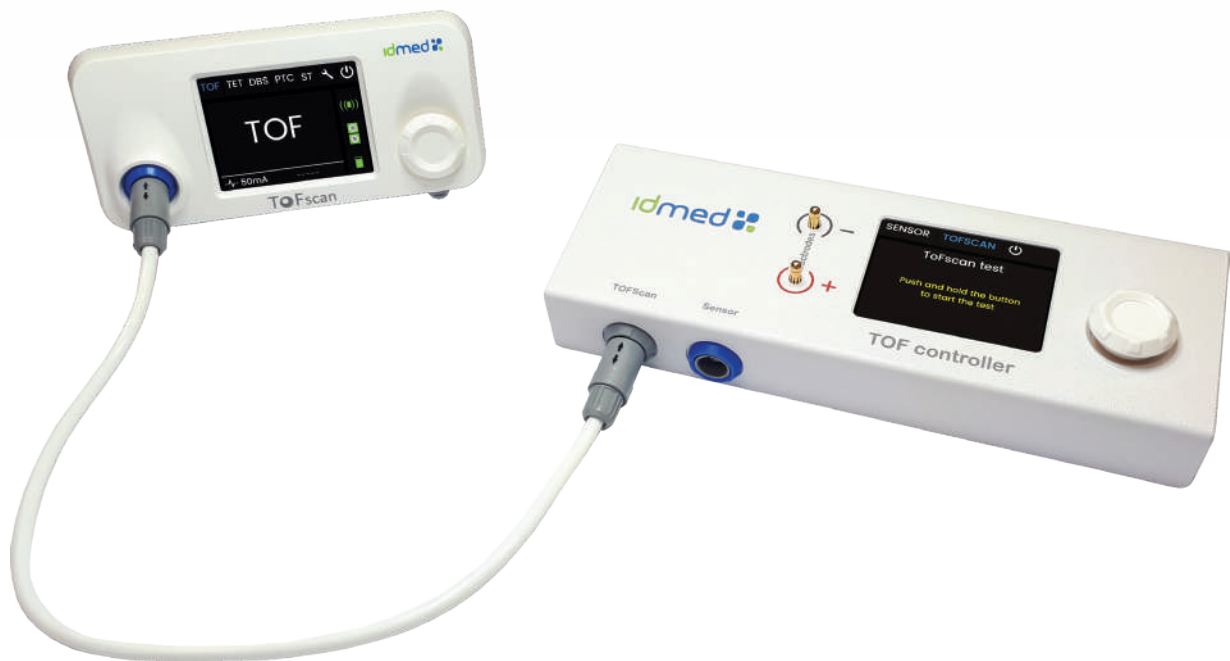

T e s t b e n c h f o r T o F s c a n

- ToFscan & sensors validation test
- Gain autonomy on commissioning and maintenance

TOF-Controller features

The TOF-controller is a simple and compact measuring device for validating the operation of the ToFscan and its sensors.

- Ergonomics similar to ToFscan for efficient handling.
- Compatible with ToFscan software all versions.
- Fast and clear test results for reliable validation.
- Compact size and light weight < 1 Kg (1/2 lb).
- Annual maintenance by the user.
